### **DETAILED ACTION**

Claims 1-12 are pending.

#### ***Specification***

1. The disclosure is objected to because of the following informalities: paragraph [0028] sets forth the USPTO Disclosure Documents 511808, 511810, 511811 and 511812 are included in the Appendix Section.

Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims set forth a quatrepolymer composition but lack a description of said quatrepolymer constitution.

Furthermore, the facts of record indicate at paragraph [0028], "Additional information is available on USPTO Disclosure Documents 511808, 511810, 511811 and 511812 copies of which are included in the Appendix Section.". Each of said documents sets forth a chemical tablet utilizing a "proprietary" polymer. The claimed subject matter, ie., quatrepolymer, was not described in the specification in such a way

as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed polymer constitution is unclear. To the extent the polymer contains four different monomer units therein, it is unclear what said monomer units are other than at least one of said four monomer units may contain a carboxylic anionic group. Attention is directed to claim 8, which sets forth polycarboxylic anionic quatrepolymer.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The term "quatrepolymer" does not appear to be a term of the art, wherein said polymer has an accepted and known meaning in the art. The claimed polymer constitution is unclear. To the extent the polymer contains four different monomer units therein, it is unclear what said monomer units are other than at least one of said four monomer units may contain a carboxylic anionic group. Attention is directed to claim 8, which sets forth polycarboxylic anionic quatrepolymer.

### ***Response to Arguments***

6. Applicant's arguments filed April 30, 2004 have been fully considered but they are not persuasive.
7. Applicants indicate that the written description information regarding the "quatrepolymer" would be provided in a continuation in part application. Said rejections under 35 USC 112, 1<sup>st</sup> and 2<sup>nd</sup> paragraphs have therefore been maintained herein.

***Conclusion***

8. No prior art rejection has been set forth herein because it is unclear what is the make-up of the quatrepolymer. Faust et al, 4,087,360, cited by applicant discloses a polycarboxylic anionic polymer and calcium hypochlorite in tablet form.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
